Alexander Ayoola

Semester 1 hours: 15 hours
This semester was spent coming up with our project idea and working on the smaller milestone assignments in preparation for the implementation of our project.

Semester 2 hours: 38 hours
This semester was primarily spent on the implementation of our web application. In all, 38 hours were spent this semester. A majority of the hours were spent coding and troubleshooting issues with the application, and working on the expo poster and presentation.

Total Hours: 53 hours
